The images on these pages are all original prints, etchings and lithographs, printed on 100% rag Somerset paper. They are hand colored with watercolors, and signed titled and numbered in pencil by the artist. Each impression is an original multiple, and the coloring may vary, being done by hand. We consider this variation to be an asset. Separate editions may be printed on white and cream paper, including artist proofs and trial proofs. The price usually increases as an image becomes scarce.

Jan Hunt and Susan Hunt-Wulkowicz, May 2009

Dear Friends,

I can't wait to introduce you to my mother, Jan Hunt!

Some of you already know her personally, but many more may be familiar with her through her artwork. She has been an inspiration to me for so long, it's hard to find the words to describe

her generosity of spirit, her bright and creative mind, and her grace, even at the age of ninety. I know we will inspire each other as we live our daily lives in this lovely building, filled with history and sunlight. Her move up from Chicago will be finished in the next few days, and we'll finally both be able to turn our thoughts toward creating new artwork. Life is truly a creative work in progress...

We are pleased to welcome you into our lives, both newcomers and old friends. We hope you will accept our invitation to join us for our first official Open House.

*Susan*

P.S. I'm the proud grandmother of Haven's son, Oliver Dennis McWilliams, born on June 2nd

In honor of Jan Hunt's arrival as a resident member of the Hunt-Wulkowicz Graphics family, her smaller prints are featured in this brochure, along with Susan's images. Though the work is similar in style, both using the medium of hand colored prints, Susan has leaned more toward extreme detail, such as the inclusion of tiny names and scriptures in her imagery. Jan's work is often freer in approach, because she is truly a painter at heart. However, both artists like to blend and blur the edges between line, color and medium.

Recently, with the computer help of her son, Eric, Susan has been experimenting separately with the medium of archival digital prints known as "giclées." (Four images already produced in prior years are shown on the website and are reproductions of a popular large season series now mostly out-of-print) The new inks are now formulated to last over 100 years, and the papers for multiple centuries. She is intrigued by the creative possibilities this technology offers, and we may have some of our first trials available to show at the Open House. Come and let us know what you think...
